

# SITEBAR SPECIFICATIONS

## BEST CASE PREVIEWS:

- Full Responsive
- Scrollable
- Formular
- Full Video

## DESCRIPTION

The Sitebar Desktop offers a large and creative stage for rich media content as well as a permanent presence of the advertising message. The advertising medium adapts dynamically to the screen size, which ensures an optimal display. In addition, the sitebar always remains in the user's visible area when scrolling thanks to the "sticky effect".

\*When delivering finished HTML5 banners, please ensure that NO click tags are included. In the Google Web Designer, please set the AD Environment to Non-Google Ad. Otherwise, unnecessary libraries will be loaded that slow down the loading time.

Or contact us directly and we will help you create images and animations.
